

# Natty's House of Beauty Ltd.

Since 1973

## Wake up with Make-up *Enjoy the Benefits of Permanent Make-up*

**Micropigmentation (Permanent Make-up)** is a safe, non-surgical process endorsed by medical professionals. Natural, mineral pigments are instilled in the surface of the skin with a small, disposable needle. The client's safety and satisfaction are top priorities, only disposable equipment is used.

For women with an active lifestyle, permanent make-up **saves time and money** by **enhancing your natural beauty** without the trouble of a daily make-up routine. **Look radiant 24 hours a day!**

**Natty Wong** has been a professional since 1970 and has been specializing in Permanent Make-up for 27 years. It is Natty's experience, dedication to perfection and precision that sets her apart from others in her field.

after

I was really nervous about getting permanent eyebrows at first but as soon as I met Natty her confidence and her professionalism eased my mind immediately. I was so happy with my decision to get my eyebrows done they now have nice thickness and shape and still look very natural. Natty is truly a perfectionist in every sense of the word. Thanks Natty!"

"Natty simply enhances a woman's natural beauty. It is great to wake up in the morning and look like you had a great night sleep. I was nervous about having permanent lip colour, eyebrows, and eyeliner applied and did quite a bit of research before deciding on Natty's House of Beauty. It was definitely the right decision and I highly recommend her to any woman who wants to look 10 years younger."

"I have been drawing my own eyebrows on everyday for a long time. After seeing her web site, I immediately felt confident in her. My feelings were confirmed when I met with Natty and she did my eyebrows the same day! I am so happy with the results. Natty has given me the freedom to be able to do things I couldn't before such as swimming and going to the beach. I am grateful to her and her commitment to perfection and I highly recommend her!"

"I hated drawing on my eyebrows every day. They looked fake and took so much time. Natty took what I had and gave me beautiful, full, natural-looking eyebrows. Natty is so talented and I would recommend her to anyone, any age, needing help enhancing their natural beauty."

"I was contemplating on getting my eyeliner done, so a friend of mine recommended me to Natty's House of Beauty. I went for the consultation and immediately made the decision to do so. During the procedure, Natty was very patient and professional. The results are amazing! I feel really confident and am pleased that my eyes are a lot more expressive now. I would recommend Natty to anyone wanting to enhance. The only regret I have is that I didn't do it sooner."
